

Republic of the Philippines
PROVINCE OF SURIGAO DEL SUR
Tandag City

[Attachment](#) good morning. Thank you all for coming. Let's get things started.

The second quarter PRM Council meeting will not come to order.

The Secretariat is supposed to lead the preliminary prayers.

May I request everyone to please stand up for our morning prayer.

In the name of the Father, the Son, and the Holy Spirit, [Amen](#).

Dear Heavenly Father, thank you for the gift of life and thank you for this wonderful day.

Envelope us with your holy presence and guide us in every word we do.

We pray for growth spiritually and mentally.

We pray for financial provision and help us feel [honored](#).

With you, Father God, all things are possible.

This we ask in your holy name, Amen.

In the name of the Father, the Son, and the Holy Spirit, Amen.

Thank you again and good morning, everyone.

Let me just say that the past three months after our first meeting, there has been no major weather disturbances that happened.

And we are glad for that because we enjoy the power like that.

And another reason is that the Department of Health is about to recommend to lead the of national health emergency.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

So I hope mabawa natin na dito.

Considering that the World Health Organization has already rejected its global health emergency declaration.

And it was, all the nations were given the free hand to manage their own country as far as COVID-19 is concerned.

So sa Philippines, magpapapunti lang kita.

So at least they will not pass on, kaya minso namug-namug pa.

And we will right away jump, because Dr. Eric is in a hurry.

Orahan naligan sa ito, Eric among orahan naligan sa ato report.

Before we acknowledge the participants, let me first acknowledge Dr. Eric for his advanced report.

Good morning everyone.

, I have to request to report first.

This is unusual, but we are launching today the COVID vaccine.

So being the provincial health commissioner, I have to be present because this is a provincial launching.

So I will give you the COVID-19 update.

Actually as of today, we are not categorically safe na dilindagin kita in danger of epidemic proportion incidence of COVID.

Kaya gany, the active na ito woman is 25.

And majority of the 25 are not symptomatic.

They are tested positive for other reasons.

Anilang admission na COVID.

So meaning ato mga incidental findings among the patients that are being admitted to the hospital.

So sa kuman, 25 are, we have an active case, ang total cases na ito since 2020 was 14,981.

And as of today, as of yesterday, we only have 25 active cases.

And as I have said, may ato, ngayon 25 are not even at the hospitals.

Siguro kung ano nato, ang mga siyong mga turulok o lohan na ayaw sa hospitals.

And most of the 25 are sa routine, ginahimod na nato mga hospitals.

Pero they came to the hospitals for other reasons.

Pero protocol sa COVID test, may accidentally makita na positive sa COVID.

This is so because we would like to prevent another epidemic proportion incidence.

Because all the positive from the line and to the hospital are placed in a different section.

Because patients that are admitted are vulnerable to another infection.

So at out of the, we had 181 deaths total since 2022.

And although most, some, many of them are not from this, from Surigado Sur.

So happen lang that they died here and they were buried here.

As per protocol, ang COVID are not allowed to be transported and to be buried within 12 hours.

So may ato confirm cases sa cumulative is the cities by virtue of its population and density.

Number of people living in an area.

So may density, pinakatao gahuya in one kilometer, square kilometer or other.

So as of morbidity with 19, there are 17 total number of cases which reported COVID-19 deaths in Surigado Sur.

Actually, there were deaths that were COVID-positive.

Pero, as I have said, accidentally there were 15.

Not because of COVID-19 death.

So dili nato makonsider as COVID death.

Because they died from mostly cardiovascular accident.

So ato classification, Surigado Sur is a low risk province.

And we have maintained that for almost two years now.

And we were one of the provinces, Surigado Sur, that was first declared to be low risk.

And since then, wara ngayon at wara ngayon kita mawarset.

So may very significant and decrease.

So dili sagot niyong katingan kan, tungkol sa kadamok ng tao, yung mga places, bislik, and gano'n.

So you also expect density per square kilometer, mas ngayon ang tao.

So compact wise.

And diba ang aninina niyong tungkol sa pagmobong na nato crisis, magandang babaya ng mga tao, dili nagkatayaw gali kaibag.

So makita nato very uncurved.

Ang mga times when mo taas siya, pero dili na haw pullback sa epidemic level.

So on active cases and per vaccination status, among the fully vaccinated 58.82 percent.

Pero makita and build very big difference sa mga tao na with poster sa Mayan na incidence.

And vaccinated is 35.29.

And ato ano na ini, because routinely tested sagot, mostly na ini ang mga admitted sa hospitals, na mga fully vaccinated but admitted for different causes.

So ato ano na taas ng percentage na ego na may comorbidities?

So kung i-addly mo ang with comorbidities and AIDS, sila ang pinakataas kayo na cases.

So that's why kuman sabi-valent nato, the same prioritization, health workers, senior citizens, and with comorbidities.

So ato transmission, although this is not very reliable na ato point, because history tungod sa ka-open and travel, di na nato get matured.

So hindi kan sagawas ang iba na cases sa niya, but tungod kay makikanta ang mga cases sa mga tao na wala mag-travel mostly, ang mayan pag nato ng local transmission.

So actually ini, kung ilatip sa ka-open ini, is immaterial now. This has been reported already.

This is among the deaths, so morbidity 19, which is most quick.

And kuwan nato ang taas ng 89% that were found positive were unvaccinated.

So amaya to another update. So I would like to reassure you na health people are not sleeping under job.

But we cannot be complacent na, because this might accelerate into an epidemic again.

So kumain, we are launching officially in Suriga del Sur, the third postpartum, which we call bivalent.

Bivalent because this is uncompositionated vaccine for all COVID strains.

And basically, namang bivalent ini because combination ini. Bivalent is basically for omicron strains, which are truly unnotable omicron strains.

And today, amain ini ang target sa headset. Kanihuligan mo sa una, and first, health workers, kanaman kami gaya pa na mauna pag-vacuna.

And seniors and with morbidities. And eligibility are for those who had their second post third. Namin ambot na 4 months or more. So ang ato province will be launching our province, launching ngayon bivalent.

Actually, maski kami sa health, surprise kami, kailit na kami pag-alaga na may bivalent.

But nationally sound. And we still encourage everyone to qualify as recipient for this to have their poster.

Sa ato province na most of the vaccinated, wala kayong masunbi.

And then some of those that had the time, were na gipasangin sa vaccine, were proven na di ngayon related.

So, although, and encouraging each and everyone to qualify to have their third poster.

Internationally, the situation is also like, a lot of restrictions have been removed by so many countries already.

And in fact kita are now allowing mga foreigners to come and then testing na lang, warang na yung mandatory quarantine.

Ang mga positive karat. So, ang mga monovalent and bivalent vaccines.

Ang contents, ni Marion M.A. component of the virus sa original COVID vaccine.

Plus, ang tao may recommend ancestral strain na. But there were new strains.

So, accordingly, immigrant strains, ang mga strains, especially the first one, may ito ang pinagkapasas mo spread.

So, to develop the bivalent vaccine targeting, adding para sa P4 and P5 na variant of the COVID virus.

So, I think we'll update to how many unqualified shots, 18 years on and above, belonging to priority groups A1, health care workers, and A2, senior health workers.

When 4 to 6 months after inoculation with A2 was very close.

And as of today, it's material for most because it's very hard to remember.

Ang dosage, 15 micrograms or 0.3 mL dose. It's about the same with the booster dose sa monovalent.

And its bio contains 6 doses. And this is a better vaccine because the shelf life is longer. It's up to 18 months.

But as long as dili lang na expose sa life.

So, ang indication as booster vaccination, third booster for A1 and A2, and then how it's administered intramuscular.

Practically, it's the same kundi may lang ang mga strain na included sa bivalent.

So, 4 to 6 months after inoculation of second booster.

So, if you qualify, we encourage you to have your third booster.

And do not expect this to be the last booster.

I think soon may muna ini narutin vaccination among mga vaccines.

And mayon let's exploit this time when it's still free because I think the way the vaccine manufacturers are talking,

kasi kung tignis nila to selling. Bila mo lang sa private, but at the price.

So, kung pulila ginaan mga tao na kusunod na kuhan exposure, ayaw ka mong pagkumpiyansa.

So, I think that's all of this.

Another emergency authorization might be lifted and the vaccines might become routine vaccines na kibalik.

Proving na di naginahan ng emergency authorization.

So, basically, kapalik-palik na sa mali nato at studio.

Naku-report.

Thank you.

Thank you, Dr. Eric Monscaros.

Questions, comments from the member agencies?

I don't know if you're available.

Thank you.

Thank you for the short stories.

Good afternoon, ladies and gentlemen.

It will be a long week.

So, pretty soon, schedule na naman to return our long-term support.

Thank you, sir.

Thank you, Doc.

Yes, Dr. Monscaros.

Thank you, sir.

Pagpapakalisokan ng kuwan.

Kuwan, kung iyon mga kuwanin.

Gawin, gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

Gawin na, sir.

As of now, I'm not sure what my balance is.

I'm not sure.

But which way do I have an advantage to the companies that will be doing the analysis?

Sige, question pa.

Kakin pa kayo, gaya?

So, definitely, if you're not able to get the booster shot, why didn't you get it?

It's because I'm not able to get it.

So, what's the problem?

It's still in place, still.

Oh, that's because I'm not sure.

Wala lagi sure ka?

Wala lagi sure pa rin.

So, Ika lima.

Ika lima, ika lima.

Ika lima, ika lima.

Third poster.

Third poster, o.

Question?

Gana?

Again, thank you, doc.

I think Doc Eric will be leaving early.

Kuna siya ang papaksin.

Kailin, sinibukubukain na.

No potest na, ay.

Thank you, doc.

Thank you.

Thank you.

Thank you.

Kailin, sinibukubukain na.

No potest na, ay.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

Thank you.

May bagay-bagay.

Baksin muna pag-bagay.

May bagay-bagay.

May bagay-bagay.

May bagay-bagay.

May bagay-bagay.

Dua.

Apo.

And from Padmo IT also, Mr. Christopher Vistal.

From DepEd, Mr. Marito Lozada.
From Sir Seco II, Mr. Charles Darwin Ramos.
From PPD2, Ms. Alicia P. Salazar.
From DPWH, Mr. Miller Pagaran.
From VGO, Mr. Joel P. Avila.
From PSWDO, Mr. Junip A. Papor.
From DOSTSDS, Mr. John P. Lumangkas.
From TCWD, Mr. Jerry Bernadas.
From PBO, Mr. Alejandro Rongelio.
From DALGSTS, Ms. Riza D. Schott.
From PGO Nutrition, Ms. Melioniza Serra.
From Petro LGU, Ms. Shara Lingkuna.
From PHO, Dr. Eric Montes Claros.
Also, Mr. Helbert Lugo.
From PIA SDS, Ms. Nida Grace Barsena.
From BFP, F03 Gera Kubilian.
From PIVET, Mr. Rodelo P. Magiano.
From Office of Sangguniang Pangluluhugan, Honorable Ricky J. Sayawan.
From Red Cross, Ms. Zenda Fernandez.
Also, from Red Cross, Ms. Grace R. Pagaduan.
Also, from PTO, Mr. Peter Luna.
That's all, Mr. Chair, for our participants.
Thank you, Mr. Rivas.
By the way, Ms. Riza Sion,
is the new provincial director of the museum.
She replaced Peter Boeng and Agaba.
So, atay, muli ka mabuti sa Pradis Kusyugor.
Okay, let's proceed.
Charles Ramos.
Ikaw itong klasmik niya.
Hindi ang ayan ang story na kita.
Sige, let's proceed.
With the presence of majority of the members of the PDRR and counseling,
the chair by the chairs of the room,
let's proceed with the reading of the previous minutes.
The members may move to the space
with the reading of the previous minutes,
if they would like.
Provided by the advanced category.
Yes, Mr. Chair.
Mr. Chair, may I move that
the reading of the previous minutes be dispensed,
being that all the members are already given the office, Mr. Chair.
The motion to dispense the reading of the minutes of the previous meeting

is hereby adopted.

Let's proceed with the approval
of the minutes of the previous meeting.

Motion?

Moved to approve.

The minutes of the previous meeting is hereby approved.

Let's proceed with the reading of the agenda
and thereafter the approval.

Good.

Baka-baka.

So, we only have three.

Okay, sir.

With us, can we read the agenda?

Our agenda first will be the weather outlook.

Second will be the PDRR Amendment Office Monitoring and Evaluation Report,
including with it is the LARM Act for the month of May, 2023.

Also, the COVID-19 update.

Also, next to it, the COVID-19 update will be the ASF
will be included there and also will be edited la na, Mr. Chair.

And finally, the other matters.

Okay, thank you.

Any insertions or additions to the agenda before we approve it?

The ones will be added, Mr. Chair, as the ASF update.

ASF update?

Ah, at tina lang sa PDRR, Mr. Chair.

Uh-oh.

Sige.

Any more additions la na?

Okay, in motion to approve the agenda for today's meeting.

Yes, ma'am?

Ayos, sir.

Motion?

Seconded.

Okay, the agenda for today's meeting is amended

... P-D-S-F included i-serve by approval. Let's proceed with the first agenda, the weather outlook,
here of PDRRNB.

... So generally next, Tandag City will be partly cloudy to cloudy as we ka-experience manatong
kumanman. Kami nagpasalama and we continue to pray na ma-maintain nina-weather kaya for
the past 6 months period wala kita naka-experience ng makalamitan kita so thank God na wala
kita naka-experience.

... So Mr. Chair, I will now be proceeding to the next...

... Before you proceed, may I also receive questions, comments from the members of the
weather outlook, whether you like it or not.

... Weather outlook, let's aim the information about the Illiniu. It has been pronounced by Mag-

Asa that Illiniu is around 80% likely to happen.

... And there is a communication coming from the ILG requesting among others for the local government units to pass an ordinance addressing the effects of Illiniu, particularly in the area of agriculture and other areas.

... So what's the plan, PDRRNB or the wing to prepare the arrival of Illiniu?

... That is why we cannot just comment on that on the basis that we don't have that official communication from the OCT.

... It's easy to pass measures or ordinances regarding ordinances, but what would be one support as far as financial budget or budget in that piece of legislation?

... It's easy to pass a law, but what would be one support as far as financial budget or budget in that piece of legislation?

... So I was also asking the Provincial Agriculture Office kung mong isa position ng Department of Agriculture.

... And they wanted to pick one of them is of course the agricultural sector and consequently our food security.

... But we are happy in Suriname to serve from time to time.

... Nauwan pa sa lihat ko, di ba? Sige pa uwan.

... So I looked to other places, di pa sagot siya ka dayo pronounced.

... That's why I wapan ako ki hawinan ko pa ang communication because di pa sagot siya ka dayo pronounced.

... Ang sharebar pa kita ko ng online liho pisama ng national government.

... It's only 80% wapan ako ng 100%.

... But of course we appreciate the drive of the IMG to be proactive in this weather phenomenon.

... So sigita, ma'am.

... Ma'am, I assure you that before the meeting, Mr. Nagamindi umuromong Rikisayawan as a sharebar sponsor ng ini.

... Pag taro na gandaan ang buwan.

... Kaya tubigan ang buwan, sir. Wala mga suwapis.

... Buwan, drive kita na magtibig ng tubig.

... At di mga water saving tips na i-append sa buwan.

... That's okay, di ba?

... Pero unang gandaan natin ang pag-mobilize at support.

... Pag may balapos, dapat may kuha na to financial backing.

... Otherwise, how would we mobilize people without the necessary budget?

... So ang budi ramang niya ang aay.

... Pag buwan ng percent, pira na kita.

... Kaya magkain, I'm asking PBR.

... Kaya dapat magkano-team sa lakitan.

... Namiwan natin kapuhaan sila sa iwan.

... Because that's also a disaster.

... And it's a long-term disaster.

... Not one time, unlike ang bagyo is mo agida.

... It's expected to be a prolonged revenue to last until next year.

... So taas-tasa din pinto na rinig.

... But with Surionus for being one of the last forest-branded in the Philippines.

... And in fact, Water District siya mo.

... I don't know for the Water District, but they need proactive action...

... Kay tubig sa kina ng biruan na ito.

... Sir, may vote, please.

... Thank you, sir.

... As to water supply, TCWD is facing right now.

... Exhausted na itong pag-aingun na in-lineo.

... Since supply natin is from gravity and then may among supply.

... Fortunately, we are prepared for it.

... Kung halimbawa si in-lineo mo o strokin mo sa kanta...

... May mga options sa mga directives from LUA on how to mitigate in-lineo.

... But in so far, so good.

... Supply nato, okay pa naman. Wala pa kita problema.

... For the information that goes to Tanan...

... Out of 21 barangays for Tandag City, we are supplying 19 barangays...

... Including Barangay Maitong, Barangay Pandanon, Barangay San Jose and Barangay Sunset Road.

... These four barangays are waterless barangays.

... For now, we are supplying for another four barangays. Thank you, sir.

... Also ang supply niyo is combination of surface water or underground water.

... Pilatong percent ang surface water nato?

... Surface water na aso siya sa 30 percent, then deep wave is 70 percent.

... Thank you, kayo. Ang mula gilapigtahan niyo pag maganda ng surface water.

... Kaya ang underground, hindi pa siyang maurot.

... Ano ang underground water is not susceptible to evaporation.

... Ang surface water ngayon ang premierong gilapigtahan.

... So, expectedly, 30 percent of the concessionaires of Tandag Water District will be affected.

... This is not to mention.

... So, surface water, sige na kaya.

... It will affect the production of different commodities, agricultural commodities, including animal.

... Every living matter consumes water na mabak.

... So, ayaw na mandihan nato, including ganyan ang soseko.

... Pilatong percent sa soseko ang hydro nato sa energy mix nato.

... Pilatong percent ang hydro, pilatong percent ang petroleum based.

... Mostly coal, sir.

... Coal.

... So, hydro.

... 30 percent.

... 30 percent.

... Sige.

... Ano lang ang yung atayan?

... Just allocate a certain portion of our exhausted body.
... Long term, may task-task kayo na kung body.
... Sige.
... Again, thank you.
... Thank you, Adam, just reminding the body that aside from the usual weather outlook,
... We have a long term weather, pinong-pinong, that is about, and it's now happening.
... Globally.
... Globally.
... Sige, thank you.
... Any questions, report?
... First agenda?
... No.
... Dat na? Sige.
... I don't know.
... I don't know. Sige, sige.
... Just recently, at 9.31 a.m.,
... As per advisory from PAKASA,
... El Nino may emerge early next month and may persist until the first quarter of 2024.
... El Nino increases the likelihood of below normal rainfall conditions,
... which could bring negative impacts, such as dry spills and droughts in Caracas region.
... As of June 2023, there is no meteorological effect of the incoming El Nino.
... This means rainfall conditions in the region are still normal.
... The U.S. PAKASA will issue dry spill drought assessment and outlook, as well as El Nino effects,
... and has potential to affect our monthly rainfall condition.
... Thank you, sir.
... That's the beauty of technology.
... When you are in trouble, go to Google.
... Sige, thank you.
... Thank you, sir.
... Kung pwede natay GC,
... I will include you, daily update na morning and afternoon.
... So, everyone, every member of the council will be updated of the weather situation.
... Thank you, sir.
... So, please include the new members, particularly our new producer director,
... so that she will be updated, kaya sila nabindatan ako sa mga lokakang internets.
... Including, of course, si Sarah.
... Click.
... Thank you, sir.
... At kung wala pa, wala pa nabagi ang messenger.
... Palihulog ko.
... Sir, pwede ipoy ang lakapapagulig na panong research niyo.
... Okay.
... Let's proceed with the second agenda.
... Monitoring and evaluation report of the DRIO, particularly on the fund utilization as of May

23, 2023.

... Sir, Alex, take it away.

... Okay, sir.

... If you will notice, maipuan na siya may format.

... Now, this is the format of the OCD pag-abot sa reporting.

... And this is not anymore called accomplishment.

... Malik lang ang terminology na pag-agamit ko man.

... Pali OCD format na ini siya.

... So, as you can see, sa preparedness ang mini-acamo na gasto, na program, mga drafts and expense.

... And these are the trainings conducted.

... Ngamun na siya ng mga trainings.

... Kay ang gasto manggoon nato, we have to spend much on the preparedness.

... So, there will be no expenditures pag-abot sa response and recovery.

... Meaning kung wala kalamidad, dito lang kita sa pre-disaster activities.

... Which we have to spend at least 60% of the work with us sa kwarta.

... Because if we cannot spend 60%, then kita pupasar sa SGLG.

... District 2, yun ba si ma'am? SGLG.

... So, ang mga nato kapatbanta yan sa ato, na we have to spend sa pre-disaster activities more aggressively than sa kuan siya sa response ni sa after disaster or sa disaster time na.

... Ang pag-ampok kita na wala yung disaster, which God is listening to us.

... Kaya tanawa, first quarter, first half, wala kita ang kalamidad.

... So, thank you very much, God.

... So, yun ang mga trainings na we conducted with lots of agencies, mga LGUs requested from us and we provided the trainings for them.

... That is why ang may nasiyan, may mga double-bitang expenditures.

... As part of our resiliency program, ang mga nato already aim to make Surigao Del Sur resilient by 2023 and beyond, next month.

... So, ang mga pang-nefarct ang isiyon.

... And we taught also the Council for the Easy Passage of PSCP, as approved ng PSCP nato sa Surigao Del Sur sa province.

... We also have other LGUs para sila PSCP like Salanosa and other LGUs.

... Kaya ang mga atorol to be partners with them in building the resiliency of the LGUs.

... And as a matter of fact, we have provided financial assistance sa mga LGUs, kaya part sa atorol yan kung kulat ng ilang kwarta na, kaya augmentation malaki kita.

... So, we have to provide financial support when their money is not enough for the training, basa di arang lamang.

... And also, I am encouraging sa inyong tanan sa mga Council members na kung may mga plano na trainings, you can perhaps request from us.

... We can provide financial support para sa inyong activity, kaya di arang malaki.

... So, it's our duty to support sa mga community.

... Sa iyo mga manchen, sa red cross, if you have one, we can provide for that.

... Next, France. Sa response, ang may nang nahimok ng mga activities sa mga relief goods, sa mga nasunugan, sa mga naapiktuhan sa Baja.

... Usually, ato Baja na ito, last year pa manito, sa San Miguel. So, ini ginagmai lang ang mga activity na pamin.

... Because the coverage that was released from April to June was the coverage of the reporting month.

... So, gamay naman rin siya, we're not going to get into the shared line. May mga nasunugan, pero ginagmai naman ang mga nasunugan.

... The truth is, I am the one who is in charge of assistance, financial and food packs. Next, France.

... If you can notice, yaon sa 2019 to 2022, ang mga continuing appropriation na wala ka magastu.

... This is a capital outlay intended for some mga buildings, which amuin ang mga mong pag-apres бага-reserve kay pagkatagaan ng mga tanigob ng lupa sa Munglo.

... That is why, as I said, mong lupa, saloha, bayah. Saloha, kay magpalit man ang kapitul ng bi-vector.

... So, we will be building our new house there, sa ato, new building sa saloha.

... France sa total, sa total na ito, France sa total. Next France, next, so pinag-a last France.

... If you will notice, tako siya, kay included mangod ang continuing appropriation from 1919.

... So, kung matakaan na ng lupa, ma-finder na ang mga cluster ng lupa dito, so we can perhaps immediately make our construction para sa ating new building, ang compound.

... It will be called BRRCCA compound.

... Meron naman, dakot-dakot na siya mga cluster, may mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... So, mga mga partingan na lang ang mga sankyanan.

... Thank you. Next question.

... May I add also that any and all unutilized funds for the previous years will go to the trust fund.

... Trust fund siya mo? Five-year trust fund.

... Kaya hindi sabi ka datutig.

... Kaya hindi sabi ka datutig.

... Kaya hindi sabi ka datutig.

... Kaya hindi sabi ka datutig.

... Kaya hindi sabi ka datutig.

... Kaya hindi sabi ka datutig.

Ang Cortez o San Miguel,
which is una na case
ka niya sa ato,
59:59.000 --> 01:00:01.000
ya pay na sila.
01:00:01.000 --> 01:00:03.000
Kaya comply na sila.
01:00:03.000 --> 01:00:05.000
Infact, ang Cortez o San Miguel is
01:00:05.000 --> 01:00:07.000
so good na sila na nito
01:00:07.000 --> 01:00:09.000
nila sentiniling na
01:00:09.000 --> 01:00:11.000
ka-try ang region
01:00:11.000 --> 01:00:13.000
pag-provide ng itong mga pabuy
01:00:13.000 --> 01:00:15.000
para as experimental
01:00:15.000 --> 01:00:17.000
din it-check siya after
01:00:17.000 --> 01:00:19.000
40 days kung may case
01:00:19.000 --> 01:00:21.000
or popasitip ba siya sa ASF.

01:00:21.000 --> 01:00:23.000
So far, ito ang naghatak
01:00:23.000 --> 01:00:25.000
ng mga sentiniling na mga pabuy
01:00:25.000 --> 01:00:27.000
is wala simpositif.
01:00:27.000 --> 01:00:29.000
Ang may aong pink na sila kuman.
01:00:29.000 --> 01:00:31.000
So ang next move nila is
01:00:31.000 --> 01:00:33.000
popalik sila pagka-yilog pero on-process pa
01:00:33.000 --> 01:00:35.000
ang pagkuan gaya sa yilog.
01:00:39.000 --> 01:00:41.000
Then, ini siya,
01:00:41.000 --> 01:00:43.000
ang mga itong pink na isa
01:00:43.000 --> 01:00:45.000
na hihikat ko sa yilog.
01:00:45.000 --> 01:00:47.000
So far, sa region 13,
01:00:47.000 --> 01:00:49.000
is wala paggayot min-1
01:00:49.000 --> 01:00:51.000
hihikat sa pink na sigod sa yilog
01:00:51.000 --> 01:00:53.000
pas in-sulot buwan.
01:00:57.000 --> 01:00:59.000
So, sa surikod ng sir, ang mga nisan
01:00:59.000 --> 01:01:01.000
extent na ni Sepsato,
01:01:01.000 --> 01:01:03.000
so far, is
01:01:03.000 --> 01:01:05.000
pibilahay na kaya ka munisip yun
01:01:05.000 --> 01:01:07.000
ang wala maigok. Pero sa
01:01:07.000 --> 01:01:09.000
tinuday, may mga kaso yaon
01:01:09.000 --> 01:01:11.000
wala lang sila magdukan.
01:01:11.000 --> 01:01:13.000
Ok? Mahandok sila

01:01:13.000 --> 01:01:15.000
na mapuha ang ina munisip yun.
01:01:15.000 --> 01:01:17.000
Ang parehatag
01:01:17.000 --> 01:01:19.000
is pagkuhay pa sa ang
01:01:19.000 --> 01:01:21.000
gagwaid. Ang lanusah
01:01:21.000 --> 01:01:23.000
actually is, wala kaya
01:01:23.000 --> 01:01:25.000
di ang siya mukhubuan during
01:01:25.000 --> 01:01:27.000
sa surveillance, pero
01:01:27.000 --> 01:01:29.000
sa
01:01:29.000 --> 01:01:31.000
slaughterhouse na yung tun
01:01:31.000 --> 01:01:33.000
mga papoy na tag-scouters ganis sa tanda
01:01:33.000 --> 01:01:35.000
na tagbuhan ni Dukzini
01:01:35.000 --> 01:01:37.000
ng mga blood sample.
01:01:37.000 --> 01:01:39.000
Min-positive siya.
01:01:39.000 --> 01:01:41.000
Pero tagapila namin eh
01:01:41.000 --> 01:01:43.000
sa nasyonal na dapat
01:01:43.000 --> 01:01:45.000
hindi nila irit ang lanusah
01:01:45.000 --> 01:01:47.000
pero hindi, mga buhuy-buhuy
01:01:47.000 --> 01:01:49.000
siguro sa ang taga nasyonal
01:01:49.000 --> 01:01:51.000
na warang sila mabati.
01:01:51.000 --> 01:01:53.000
Pero, technically,
01:01:53.000 --> 01:01:55.000
warang siyang positive
01:01:55.000 --> 01:01:57.000
during the surveillance.

01:01:57.000 --> 01:01:59.000
Dito siyang positive sa yung tun
01:01:59.000 --> 01:02:01.000
sa slaughterhouse na napagpuhan ang
01:02:01.000 --> 01:02:03.000
blood sample.
01:02:03.000 --> 01:02:05.000
Pero ok na sa gapon. Ano ko ang lamin sa gapon
01:02:05.000 --> 01:02:07.000
ang babuigigan sa lanusah.
01:02:09.000 --> 01:02:11.000
So, ang inisiyan
01:02:11.000 --> 01:02:13.000
ang lalag ko ay man, sorry
01:02:13.000 --> 01:02:15.000
mo.
01:02:15.000 --> 01:02:17.000
Ang sanmigil is red sa una.
01:02:17.000 --> 01:02:19.000
Di kuman niya pink na sa ng cortis.
01:02:19.000 --> 01:02:21.000
Carascal green
01:02:21.000 --> 01:02:23.000
and
01:02:23.000 --> 01:02:25.000
carmine is pink. Tumut kay min-red na lanusah
01:02:25.000 --> 01:02:27.000
mukha mo yan niya pink and carmine.
01:02:27.000 --> 01:02:29.000
Tapos ang barubu is pink. Tumut kay
01:02:29.000 --> 01:02:31.000
ang silingan sa kitang mong CPU
01:02:31.000 --> 01:02:33.000
is garret.
01:02:33.000 --> 01:02:35.000
So, technically, at warang
01:02:35.000 --> 01:02:37.000
ganda niya ma-igo mo o warang
01:02:37.000 --> 01:02:39.000
kaso na niya siya
01:02:39.000 --> 01:02:41.000
is
01:02:41.000 --> 01:02:43.000
marubu, carmine,

01:02:43.000 --> 01:02:45.000
carascal, hinatuan
01:02:45.000 --> 01:02:47.000
o madrid.
01:02:47.000 --> 01:02:49.000
Yaw ang sila.
01:02:49.000 --> 01:02:51.000
Next.
01:02:51.000 --> 01:02:53.000
So,
01:02:53.000 --> 01:02:55.000
sa Kumanda 28,
01:02:55.000 --> 01:02:57.000
anong inisiyan ang mga munisipyong
01:02:57.000 --> 01:02:59.000
na ia-igo ng ASF mo?
01:02:59.000 --> 01:03:01.000
Yaw ang mga yakari
01:03:01.000 --> 01:03:03.000
na font na color
01:03:03.000 --> 01:03:05.000
ia-igo yun sila
01:03:05.000 --> 01:03:07.000
pero warang sila magpadipak.
01:03:07.000 --> 01:03:09.000
Meaning,
01:03:09.000 --> 01:03:11.000
sila-sila dagan ang
01:03:11.000 --> 01:03:13.000
contain ng nila cases
01:03:13.000 --> 01:03:15.000
kaya nila panini
01:03:15.000 --> 01:03:17.000
pagpasiti
01:03:17.000 --> 01:03:19.000
ang
01:03:19.000 --> 01:03:21.000
pagkawasan result, ang nila mga
01:03:21.000 --> 01:03:23.000
babuyang ang matay na.
01:03:23.000 --> 01:03:25.000
So, sa mislake,
01:03:25.000 --> 01:03:27.000
kama yung may katurusiyan,

01:03:27.000 --> 01:03:29.000
pinakatakong na kaso na at umanunin sa
01:03:29.000 --> 01:03:31.000
itukan
01:03:31.000 --> 01:03:33.000
madamsari
01:03:33.000 --> 01:03:35.000
na, sorry, sayo kini nato
01:03:35.000 --> 01:03:37.000
pictured mga 500 yung
01:03:37.000 --> 01:03:39.000
kapin ang iya dipak sa iya part
01:03:39.000 --> 01:03:41.000
sa
01:03:41.000 --> 01:03:43.000
ang
01:03:43.000 --> 01:03:45.000
ang
01:03:45.000 --> 01:03:47.000
saritumagan
01:03:47.000 --> 01:03:49.000
sa matigtum
01:03:49.000 --> 01:03:51.000
na part niya.
01:03:51.000 --> 01:03:53.000
Kaya, and last nato,
01:03:53.000 --> 01:03:55.000
last year ito ang
01:03:55.000 --> 01:03:57.000
mayor VG sabi ang iya dipak nato.
01:03:57.000 --> 01:03:59.000
So, par guman nato,
01:03:59.000 --> 01:04:01.000
kiniandangun nato mga 500
01:04:01.000 --> 01:04:03.000
kapin
01:04:03.000 --> 01:04:05.000
sa ang sarit na dipak nato.
01:04:05.000 --> 01:04:07.000
Only now, since 2019,
01:04:07.000 --> 01:04:09.000
436
01:04:09.000 --> 01:04:11.000
pinaan nato affected na mga

01:04:11.000 --> 01:04:13.000
um, racers,
01:04:13.000 --> 01:04:15.000
then
01:04:15.000 --> 01:04:17.000
uncount na nato, total number of hits
01:04:17.000 --> 01:04:19.000
at that call is
01:04:19.000 --> 01:04:21.000
1,823
01:04:21.000 --> 01:04:23.000
excluded yung
01:04:23.000 --> 01:04:25.000
mga, wala takpang surrender
01:04:25.000 --> 01:04:27.000
ng mga matay na ng mga babuy na
01:04:27.000 --> 01:04:29.000
wala din ay undergo into
01:04:29.000 --> 01:04:31.000
calling.
01:04:31.000 --> 01:04:33.000
Next.
01:04:33.000 --> 01:04:35.000
So, in response
01:04:35.000 --> 01:04:37.000
sa itong nato, tagpay kayo
01:04:37.000 --> 01:04:39.000
ang mga dipak militia or calling,
01:04:39.000 --> 01:04:41.000
an provincial government
01:04:41.000 --> 01:04:43.000
of Sir Goddison is going to provide
01:04:43.000 --> 01:04:45.000
cast assistance
01:04:45.000 --> 01:04:47.000
kitaagin sa
01:04:47.000 --> 01:04:49.000
federal office
01:04:49.000 --> 01:04:51.000
na
01:04:51.000 --> 01:04:53.000
3,000 per one
01:04:53.000 --> 01:04:55.000
recipient

01:04:55.000 --> 01:04:57.000
or per takiya ng babuy.
01:04:57.000 --> 01:04:59.000
So, regardless
01:04:59.000 --> 01:05:01.000
kung nunokadamu ang babuy na
01:05:01.000 --> 01:05:03.000
iya dipak,
01:05:03.000 --> 01:05:05.000
is 3,000
01:05:05.000 --> 01:05:07.000
naghatag ng province tungod kay
01:05:07.000 --> 01:05:09.000
amuday ba kaya?
01:05:09.000 --> 01:05:11.000
Kasi din ring sa extent
01:05:11.000 --> 01:05:13.000
ng kadamuk na yang
01:05:13.000 --> 01:05:15.000
atiktuhan.
01:05:15.000 --> 01:05:17.000
Ang first pass sa mga inidit,
01:05:17.000 --> 01:05:19.000
may second pass nato
01:05:19.000 --> 01:05:21.000
na anong sabihan niya provide
01:05:21.000 --> 01:05:23.000
travidis kumanahir na mora maapin
01:05:23.000 --> 01:05:25.000
sa report ni Sir na
01:05:25.000 --> 01:05:27.000
at tagaanan assistance
01:05:27.000 --> 01:05:29.000
or part siya ng
01:05:29.000 --> 01:05:31.000
program ng PDHRNU mo.
01:05:33.000 --> 01:05:35.000
And then, last year,
01:05:35.000 --> 01:05:37.000
may patayaw na panita
01:05:37.000 --> 01:05:39.000
tungod kay may
01:05:39.000 --> 01:05:41.000
tag-try na na vaccine ni baka tawag na EVAC

01:05:41.000 --> 01:05:43.000
sa ESF na vaccine
01:05:43.000 --> 01:05:45.000
na taglipinap sa Vietnam.
01:05:45.000 --> 01:05:47.000
Pero, ang first na try is
01:05:47.000 --> 01:05:49.000
yaon na sa mga 66 percent ang
01:05:49.000 --> 01:05:51.000
kapakita
01:05:51.000 --> 01:05:53.000
ng patayaw na result.
01:05:53.000 --> 01:05:55.000
So,
01:05:55.000 --> 01:05:57.000
and then, by itong June kuman,
01:05:57.000 --> 01:05:59.000
try sila sa luso ng unong
01:05:59.000 --> 01:06:01.000
ka part.
01:06:01.000 --> 01:06:03.000
So, part is patayaw ang result sa mga
01:06:03.000 --> 01:06:05.000
100 percent ang result ng
01:06:05.000 --> 01:06:07.000
pakita ng
01:06:07.000 --> 01:06:09.000
resistance or antibodies sa ESF.
01:06:09.000 --> 01:06:11.000
Pero, ang challenge ko man is
01:06:13.000 --> 01:06:15.000
kung o siya ipagawa,
01:06:15.000 --> 01:06:17.000
and then kapapagana ng approval sa
01:06:17.000 --> 01:06:19.000
FDA. And then,
01:06:19.000 --> 01:06:21.000
isa sa challenge is
01:06:21.000 --> 01:06:23.000
ang cost ng vaccine kung ipagawa siya sa market
01:06:23.000 --> 01:06:25.000
is yaon sa mga 600 pesos
01:06:25.000 --> 01:06:27.000
ang isa.

01:06:27.000 --> 01:06:29.000
Simple dose na siya.
01:06:29.000 --> 01:06:31.000
So, part is
01:06:31.000 --> 01:06:33.000
ang unang update sa ESF
01:06:33.000 --> 01:06:35.000
ang vaccine may pagkotala.
01:06:35.000 --> 01:06:37.000
Salamat.
01:06:51.000 --> 01:06:53.000
Okay, ma'am,
01:06:53.000 --> 01:06:55.000
mababang para pa si Sir
01:06:55.000 --> 01:06:57.000
Member. I would just like to take
01:06:57.000 --> 01:06:59.000
opportunity na magpasalamat siya
01:06:59.000 --> 01:07:01.000
sa council, sa TSP,
01:07:01.000 --> 01:07:03.000
at sa DILG, ma'am, sa inyo
01:07:03.000 --> 01:07:05.000
for the grabing suporta.
01:07:05.000 --> 01:07:07.000
Dato siya sa TSP, Sir,
01:07:07.000 --> 01:07:09.000
kay all of our plans
01:07:09.000 --> 01:07:11.000
from digital and all of
01:07:11.000 --> 01:07:13.000
our plans, pas-pas ang iyong approval
01:07:13.000 --> 01:07:15.000
kay ang mayan nato
01:07:15.000 --> 01:07:17.000
at mask sa SGLG.
01:07:17.000 --> 01:07:19.000
So, at least, okay,
01:07:19.000 --> 01:07:21.000
we are aiming to be a master
01:07:21.000 --> 01:07:23.000
at sa SGLG, at sa Gawad Kalasak.
01:07:23.000 --> 01:07:25.000
So, thank you sa council, kay pas-pas ang tanan

01:07:25.000 --> 01:07:27.000
wala yung hassle kayo.
01:07:29.000 --> 01:07:31.000
Thank you so much.
01:07:41.000 --> 01:07:43.000
Thank you, Sir,
01:07:43.000 --> 01:07:45.000
sa tanahanang report.
01:07:47.000 --> 01:07:49.000
Questions?
01:07:49.000 --> 01:07:51.000
For the
01:07:51.000 --> 01:07:53.000
provision of
01:07:53.000 --> 01:07:55.000
the
01:07:55.000 --> 01:07:57.000
P3,000 per
01:07:57.000 --> 01:07:59.000
fundraiser,
01:07:59.000 --> 01:08:01.000
this is a voluntary part of
01:08:01.000 --> 01:08:03.000
the provincial government.
01:08:03.000 --> 01:08:05.000
This is truly
01:08:05.000 --> 01:08:07.000
minubana.
01:08:07.000 --> 01:08:09.000
But, in fact, this is
01:08:09.000 --> 01:08:11.000
actually the program of
01:08:11.000 --> 01:08:13.000
the Department of Culture.
01:08:13.000 --> 01:08:15.000
Sila nilang may dapat magkatalingan
01:08:15.000 --> 01:08:17.000
ayuda
01:08:17.000 --> 01:08:19.000
sa ining program, pero
01:08:19.000 --> 01:08:21.000
dahil takihabot kita, despite
01:08:21.000 --> 01:08:23.000
ng kwan, ng limitation

01:08:23.000 --> 01:08:25.000
ako sa budget.
01:08:25.000 --> 01:08:27.000
Pero, hindi nato ma-pupatar
01:08:27.000 --> 01:08:29.000
ngayon.
01:08:29.000 --> 01:08:31.000
Next week, so kita na daily
01:08:31.000 --> 01:08:33.000
ang magkwanin niyo, di ba?
01:08:37.000 --> 01:08:39.000
Questions?
01:08:39.000 --> 01:08:41.000
Unang ipiktunan niyo
01:08:41.000 --> 01:08:43.000
iisip sa presyon ng baboy?
01:08:43.000 --> 01:08:45.000
Unang porong kapag-pagbabapk dry
01:08:45.000 --> 01:08:46.000
kahit kahit i knowing
01:08:46.000 --> 01:08:48.000
ko man.
01:08:48.000 --> 01:08:50.000
Timahali na hong?
01:08:54.000 --> 01:08:56.000
Oh na Stu, توابيلي na
01:08:56.000 --> 01:08:58.000
sūli na kabaw,
01:08:58.000 --> 01:09:00.000
dia-laro pa.
01:09:03.000 --> 01:09:05.000
Valentine.
01:09:05.000 --> 01:09:07.000
Yes, Sir.
01:09:07.000 --> 01:09:10.000
Naman siya pabosyo. Yaro,
01:09:10.000 --> 01:09:12.000
masik ay subtitulan ni si Sir,
01:09:12.000 --> 01:09:14.000
Sabihin, safe na ang mga papay.
01:09:14.000 --> 01:09:16.000
So, the rest, things, and rent.
01:09:16.000 --> 01:09:18.000
So, so far...

01:09:18.000 --> 01:09:20.000
Alam mo, siyempre yung mga...
01:09:20.000 --> 01:09:22.000
Pa dayong nagkatulit ni Tau,
01:09:22.000 --> 01:09:24.000
gulitin mga lalit siya,
01:09:24.000 --> 01:09:26.000
sinabukit ka ko. Safe ba?
01:09:26.000 --> 01:09:28.000
Safe na bagahan na?
01:09:28.000 --> 01:09:30.000
Well, ang last name pa ni gamababang mo
01:09:30.000 --> 01:09:32.000
yung atunin niya pa rin sa mga market.
01:09:36.000 --> 01:09:38.000
Salamat sa question mo.
01:09:38.000 --> 01:09:40.000
Actually, in case if is
01:09:40.000 --> 01:09:42.000
yung delikado sa Tau,
01:09:44.000 --> 01:09:46.000
unlike with the name
01:09:46.000 --> 01:09:48.000
sa Bird Blue,
01:09:48.000 --> 01:09:50.000
nowas ang mga taon kita is
01:09:50.000 --> 01:09:52.000
punig na matakdan na itong sakit
01:09:52.000 --> 01:09:54.000
Bird Blue. Pero, this is
01:09:54.000 --> 01:09:56.000
hindi siya mga makatawad sa Tau.
01:09:58.000 --> 01:10:00.000
Although,
01:10:02.000 --> 01:10:04.000
clearly, the kind of area is
01:10:04.000 --> 01:10:06.000
Tarascal, Madrid,
01:10:06.000 --> 01:10:08.000
Carmen, and
01:10:08.000 --> 01:10:10.000
Tuan.
01:10:12.000 --> 01:10:14.000
Tanan niya ang

01:10:14.000 --> 01:10:16.000
papoy na habi na po sa market nato
01:10:16.000 --> 01:10:18.000
is may nag-issue siya sa Souther House.
01:10:18.000 --> 01:10:20.000
Then, through the Souther House,
01:10:20.000 --> 01:10:22.000
is gina-check it nila kung
01:10:22.000 --> 01:10:24.000
through blood sampling,
01:10:24.000 --> 01:10:26.000
kung
01:10:26.000 --> 01:10:28.000
fit ba siya for consumption.
01:10:28.000 --> 01:10:30.000
Tanan ngayon, o?
01:10:30.000 --> 01:10:32.000
Tanan ngayon siya.
01:10:32.000 --> 01:10:34.000
So, good for those who are happy
01:10:34.000 --> 01:10:36.000
to Souther House, who are happy
01:10:36.000 --> 01:10:38.000
to Souther House.
01:10:38.000 --> 01:10:40.000
Gawas lang ito, na itong ihaw-ihaw sa gawas.
01:10:40.000 --> 01:10:42.000
Pero, tanan na
01:10:42.000 --> 01:10:44.000
sa public market nato,
01:10:44.000 --> 01:10:46.000
is na ang gina-siyem, puan,
01:10:46.000 --> 01:10:48.000
sa Souther House.
01:10:48.000 --> 01:10:50.000
Yes, tinawag jalan siya.
01:10:50.000 --> 01:10:52.000
But, sa masagila
01:10:52.000 --> 01:10:54.000
only through the, it's not too
01:10:54.000 --> 01:10:56.000
dangerous to human beings.
01:10:56.000 --> 01:10:58.000
But, the problem is, if you continue

01:10:58.000 --> 01:11:00.000
to consume
01:11:00.000 --> 01:11:02.000
as if positive
01:11:02.000 --> 01:11:04.000
for
01:11:04.000 --> 01:11:06.000
an atrophical matter,
01:11:06.000 --> 01:11:08.000
ito na di hapun ang
01:11:08.000 --> 01:11:10.000
guwan virus.
01:11:10.000 --> 01:11:12.000
So, para makuwan ito,
01:11:12.000 --> 01:11:14.000
mo takod ngayon sa ma-wipe out
01:11:14.000 --> 01:11:16.000
ang papilisyo nato ng babuy
01:11:16.000 --> 01:11:18.000
because of that. But, it's not
01:11:18.000 --> 01:11:20.000
hard for to consume
01:11:20.000 --> 01:11:22.000
ASF-infected
01:11:22.000 --> 01:11:24.000
guwan. Pero, ato yung control
01:11:24.000 --> 01:11:26.000
ngayon sa Provincia, I know na
01:11:26.000 --> 01:11:28.000
sa mga areas na may
01:11:28.000 --> 01:11:30.000
ASF, dili-dili baka issue
01:11:30.000 --> 01:11:32.000
ng, tawagan niya ako,
01:11:32.000 --> 01:11:34.000
issue niyo na pirmit,
01:11:34.000 --> 01:11:36.000
pwede niya narikwano.
01:11:36.000 --> 01:11:38.000
Dili niyo ang transport, number one,
01:11:38.000 --> 01:11:40.000
dili ang transport. Second,
01:11:40.000 --> 01:11:42.000
transport niya ang higali,

01:11:42.000 --> 01:11:44.000
dili mag-display, dili mag-ihaw sa
01:11:44.000 --> 01:11:46.000
lumakos ang mga palintina
01:11:46.000 --> 01:11:48.000
ito, kay. Hanapan magkawang nakuha niya.
01:11:48.000 --> 01:11:50.000
Tandag cities,
01:11:50.000 --> 01:11:52.000
di-restrict. Dr. W
01:11:52.000 --> 01:11:54.000
di-restrict si Dr. W.
01:11:58.000 --> 01:12:00.000
Pero, mali, the effect
01:12:00.000 --> 01:12:02.000
is that, na taas ang presyona.
01:12:02.000 --> 01:12:04.000
Taas ang presyona.
01:12:04.000 --> 01:12:06.000
Ang ditson sa una, size
01:12:06.000 --> 01:12:08.000
min. Sa kung inakuwan,
01:12:08.000 --> 01:12:10.000
doon si min.
01:12:10.000 --> 01:12:12.000
Pus, kung ang panagal ni,
01:12:12.000 --> 01:12:14.000
bakitin pa.
01:12:14.000 --> 01:12:16.000
Ano nato, sir?
01:12:16.000 --> 01:12:18.000
Ano muna ng other
01:12:18.000 --> 01:12:20.000
products?
01:12:20.000 --> 01:12:22.000
Ano hindi na, sir? Wafa?
01:12:24.000 --> 01:12:26.000
But, it's
01:12:26.000 --> 01:12:28.000
sad to know, in our
01:12:28.000 --> 01:12:30.000
province, we are deficient
01:12:30.000 --> 01:12:32.000
in all

01:12:32.000 --> 01:12:34.000
meat and meat poultry
01:12:34.000 --> 01:12:36.000
and products.
01:12:36.000 --> 01:12:38.000
Deficient ito na.
01:12:38.000 --> 01:12:40.000
Wala, again, sufficient si nato
01:12:40.000 --> 01:12:42.000
sa meat
01:12:42.000 --> 01:12:44.000
and poultry products.
01:12:44.000 --> 01:12:46.000
That's why it's a challenge
01:12:46.000 --> 01:12:48.000
on the part of
01:12:48.000 --> 01:12:50.000
the Office of Agriculture and Cultures as well as
01:12:50.000 --> 01:12:52.000
the veterinary office.
01:12:52.000 --> 01:12:54.000
Kuno-kuno niya ang pagpa-taas.
01:12:54.000 --> 01:12:56.000
And sufficient na kita is
01:12:56.000 --> 01:12:58.000
our marine,
01:12:58.000 --> 01:13:00.000
aquamarine products.
01:13:00.000 --> 01:13:02.000
So, sa dagang,
01:13:02.000 --> 01:13:04.000
sufficient kita nato.
01:13:10.000 --> 01:13:12.000
O, sige, sagot pista.
01:13:12.000 --> 01:13:14.000
Dispersal nato, our dispersal program
01:13:14.000 --> 01:13:16.000
mag-modific
01:13:16.000 --> 01:13:18.000
ng kuwan ang mga pista-pista
01:13:18.000 --> 01:13:20.000
especially on large animals
01:13:20.000 --> 01:13:22.000
in im

01:13:22.000 --> 01:13:24.000
baka o kuwan
01:13:24.000 --> 01:13:26.000
kamao
01:13:26.000 --> 01:13:28.000
sa dagalika sa kakarbandang area
01:13:30.000 --> 01:13:32.000
mag-ihaw sa dayo.
01:13:32.000 --> 01:13:34.000
Pero, siges, talaga, at least
01:13:34.000 --> 01:13:36.000
we continue to
01:13:36.000 --> 01:13:38.000
be, kuwan, sufficient
01:13:38.000 --> 01:13:40.000
in our protein requirement
01:13:40.000 --> 01:13:42.000
to gayaon ang
01:13:42.000 --> 01:13:44.000
fish products.
01:13:44.000 --> 01:13:46.000
Siges, question pa?
01:13:46.000 --> 01:13:48.000
Wala na?
01:13:48.000 --> 01:13:50.000
Other matters, announcements made from
01:13:50.000 --> 01:13:52.000
the different member agencies?
01:13:52.000 --> 01:13:54.000
Yes.
01:14:04.000 --> 01:14:06.000
My boss, Ma'am Vilma
01:14:06.000 --> 01:14:08.000
Rukilio, instructed
01:14:08.000 --> 01:14:10.000
me to inform the
01:14:10.000 --> 01:14:12.000
body or address to the
01:14:12.000 --> 01:14:14.000
PDRFO, Sir Alex,
01:14:14.000 --> 01:14:16.000
about CEDRA program.
01:14:16.000 --> 01:14:18.000
Sir Rukilio,

01:14:18.000 --> 01:14:20.000

I know you are

01:14:20.000 --> 01:14:22.000

aware of this suggestion

01:14:22.000 --> 01:14:24.000

na ang CEDRA daw dapat

01:14:24.000 --> 01:14:26.000

or stroke

01:14:26.000 --> 01:14:28.000

i-address na sa PDRFO

01:14:28.000 --> 01:14:30.000

department

01:14:30.000 --> 01:14:32.000

kay connected siya sa

01:14:32.000 --> 01:14:34.000

PDPFP.

01:14:34.000 --> 01:14:36.000

Unlike before ang PDPFP

01:14:36.000 --> 01:14:38.000

sa NEDA

01:14:38.000 --> 01:14:40.000

but now this is na ang

01:14:40.000 --> 01:14:42.000

nagatuan, nag-review.

01:14:42.000 --> 01:14:44.000

Tapos ang requirement niyo,

01:14:44.000 --> 01:14:46.000

PDPFP CEDRA.

01:14:46.000 --> 01:14:48.000

PDPFP CEDRA.

01:14:48.000 --> 01:14:50.000

So daw ni Ma'am Vilma

01:14:50.000 --> 01:14:52.000

ang natrain ko na sa CEDRA

01:14:52.000 --> 01:14:54.000

kalaghanan

01:14:54.000 --> 01:14:56.000

sa PDRFO.

01:14:56.000 --> 01:14:58.000

So mas sila

01:14:58.000 --> 01:15:00.000

expert

01:15:00.000 --> 01:15:02.000

acumen sila sa iyo na topic.

01:15:02.000 --> 01:15:04.000
So para ko na mapaspas
01:15:04.000 --> 01:15:06.000
kaya ang kami kuman sa PPDO
01:15:06.000 --> 01:15:08.000
on the process to
01:15:08.000 --> 01:15:10.000
complete
01:15:10.000 --> 01:15:12.000
sa PDPFP. Kanapang mga findings
01:15:12.000 --> 01:15:14.000
na kailangan naman ipokus
01:15:14.000 --> 01:15:16.000
so katong CEDRA
01:15:16.000 --> 01:15:18.000
ipuspos sa PDRFO.
01:15:18.000 --> 01:15:20.000
So sir.
01:15:20.000 --> 01:15:22.000
LAC
01:15:22.000 --> 01:15:24.000
assistant
01:15:24.000 --> 01:15:26.000
kaya-kaya
01:15:26.000 --> 01:15:28.000
kaya-kaya yan.
01:15:28.000 --> 01:15:30.000
Actually
01:15:30.000 --> 01:15:32.000
gusto na naman
01:15:32.000 --> 01:15:34.000
sabo namin ni Alex na
01:15:34.000 --> 01:15:36.000
kuha ko na lang kay
01:15:36.000 --> 01:15:38.000
baboy
01:15:38.000 --> 01:15:40.000
finger fainting
01:15:40.000 --> 01:15:42.000
especially when
01:15:42.000 --> 01:15:44.000
gawad kalasak
01:15:44.000 --> 01:15:46.000
is CEDRA will come.

01:15:46.000 --> 01:15:48.000
Kaya kung ibu-gun
01:15:48.000 --> 01:15:50.000
na akong
01:15:50.000 --> 01:15:52.000
if that particular
01:15:52.000 --> 01:15:54.000
activity
01:15:54.000 --> 01:15:56.000
is solely
01:15:56.000 --> 01:15:58.000
di kanit bang
01:15:58.000 --> 01:16:00.000
di kanit sa PDRFO
01:16:00.000 --> 01:16:02.000
dapat ang iso
01:16:02.000 --> 01:16:04.000
di ala kanang tawagon.
01:16:04.000 --> 01:16:06.000
Di naman ang mga
01:16:06.000 --> 01:16:08.000
planning offices magandang
01:16:08.000 --> 01:16:10.000
ko na. And it has
01:16:10.000 --> 01:16:12.000
been discussed also as
01:16:12.000 --> 01:16:14.000
when I was
01:16:14.000 --> 01:16:16.000
in Manila attending
01:16:16.000 --> 01:16:18.000
for the CEDRA also
01:16:18.000 --> 01:16:20.000
enacted by the
01:16:20.000 --> 01:16:22.000
National Climate Change Commission
01:16:22.000 --> 01:16:24.000
na clarified na
01:16:24.000 --> 01:16:26.000
it is part of the planning
01:16:26.000 --> 01:16:28.000
but
01:16:28.000 --> 01:16:30.000
for the sake na

01:16:30.000 --> 01:16:32.000
ang iso maawa na
01:16:32.000 --> 01:16:34.000
the PDRFO will take hold of that.
01:16:34.000 --> 01:16:36.000
Thank you sir.
01:16:36.000 --> 01:16:38.000
So wala na problema.
01:16:38.000 --> 01:16:40.000
Yes.
01:16:40.000 --> 01:16:42.000
This is
01:16:42.000 --> 01:16:44.000
only a plan
01:16:44.000 --> 01:16:46.000
wala na
01:16:46.000 --> 01:16:48.000
before CEDRA mo
01:16:48.000 --> 01:16:50.000
please educate
01:16:50.000 --> 01:16:52.000
the body on the meaning of
01:16:52.000 --> 01:16:54.000
the acronym CEDRA. Para kasabut
01:16:54.000 --> 01:16:56.000
kami. Si CEDRA
01:16:56.000 --> 01:16:58.000
na sigurang gilhan.
01:16:58.000 --> 01:17:00.000
I mean disaster risk assessment
01:17:00.000 --> 01:17:02.000
that is CEDRA.
01:17:02.000 --> 01:17:04.000
This is
01:17:04.000 --> 01:17:08.000
in relation to our
01:17:08.000 --> 01:17:10.000
assessment
01:17:10.000 --> 01:17:12.000
ang kuwetan din
01:17:12.000 --> 01:17:14.000
because
01:17:14.000 --> 01:17:16.000
din

01:17:16.000 --> 01:17:18.000
gitanan mo
01:17:18.000 --> 01:17:20.000
two weeks
01:17:20.000 --> 01:17:22.000
or one month ago
01:17:22.000 --> 01:17:24.000
nagrequest niya sa
01:17:24.000 --> 01:17:26.000
six years plan
01:17:26.000 --> 01:17:28.000
in which we observed
01:17:28.000 --> 01:17:30.000
na hula din atong
01:17:30.000 --> 01:17:32.000
six years plan
01:17:32.000 --> 01:17:34.000
because one of the basis na
01:17:34.000 --> 01:17:36.000
kong prepare sa kong uminit sa six years plan
01:17:36.000 --> 01:17:38.000
this assessment.
01:17:38.000 --> 01:17:40.000
Now
01:17:40.000 --> 01:17:42.000
na ang atong plan, six years plan
01:17:42.000 --> 01:17:44.000
but wala ang atong basis
01:17:44.000 --> 01:17:46.000
based on
01:17:46.000 --> 01:17:48.000
six years plan.
01:17:48.000 --> 01:17:50.000
PDRF plan.
01:17:50.000 --> 01:17:52.000
Now
01:17:52.000 --> 01:17:54.000
ang nagtabuan ni
01:17:54.000 --> 01:17:56.000
ang planning ng PPDO
01:17:56.000 --> 01:17:58.000
may nangkandak sa CEDRA
01:17:58.000 --> 01:18:00.000
para i-incorporate dito

01:18:00.000 --> 01:18:02.000
sa PDGP
01:18:02.000 --> 01:18:04.000
but that part
01:18:04.000 --> 01:18:06.000
ma-iniliti sa
01:18:06.000 --> 01:18:08.000
PDRF mo
01:18:08.000 --> 01:18:10.000
because
01:18:10.000 --> 01:18:12.000
ang six years plan
01:18:12.000 --> 01:18:14.000
e-integrate dito sa PPDP
01:18:14.000 --> 01:18:16.000
before.
01:18:16.000 --> 01:18:18.000
Mataas na sa kita.
01:18:18.000 --> 01:18:20.000
This is water under the bridge na nag-issue
01:18:20.000 --> 01:18:22.000
because di kuha
01:18:22.000 --> 01:18:24.000
at disaster is already committed
01:18:24.000 --> 01:18:26.000
to do di kuha ang CEDRA, diba?
01:18:26.000 --> 01:18:28.000
So hindi ka natin ang diskasan.
01:18:28.000 --> 01:18:30.000
You might be watching the
01:18:30.000 --> 01:18:32.000
limits in public.
01:18:32.000 --> 01:18:34.000
Americano, water under the bridge
01:18:34.000 --> 01:18:36.000
yun siya, no need not to discuss
01:18:36.000 --> 01:18:38.000
because willing man sila mo
01:18:38.000 --> 01:18:40.000
under there.
01:18:48.000 --> 01:18:50.000
It is not
01:18:50.000 --> 01:18:52.000
your place to discuss

01:18:52.000 --> 01:18:54.000
issues between and among
01:18:54.000 --> 01:18:56.000
the planning office and the disaster office
01:18:56.000 --> 01:18:58.000
because you are current budget office.
01:18:58.000 --> 01:19:00.000
Part of
01:19:00.000 --> 01:19:02.000
part of the council
01:19:02.000 --> 01:19:04.000
that's why, sir, you remain there
01:19:04.000 --> 01:19:06.000
during the first quarter nato.
01:19:08.000 --> 01:19:10.000
The chair declares you
01:19:10.000 --> 01:19:12.000
out of order.
01:19:12.000 --> 01:19:14.000
Tama na lagi.
01:19:14.000 --> 01:19:16.000
Mataas na sa kita.
01:19:16.000 --> 01:19:18.000
Uki na mali ito.
01:19:22.000 --> 01:19:24.000
Anymore?
01:19:24.000 --> 01:19:26.000
Okay, Mr. Chair.
01:19:26.000 --> 01:19:28.000
This is just an announcement
01:19:28.000 --> 01:19:30.000
because by July
01:19:30.000 --> 01:19:32.000
this is a national decisions
01:19:32.000 --> 01:19:34.000
month celebration
01:19:34.000 --> 01:19:36.000
and the PDRN mo
01:19:36.000 --> 01:19:38.000
will be joining, together with the Red Cross
01:19:38.000 --> 01:19:40.000
we will be joining with the
01:19:40.000 --> 01:19:42.000
CEDRA disaster office na

01:19:42.000 --> 01:19:44.000
by Monday we will be having our
01:19:44.000 --> 01:19:46.000
motorcade
01:19:46.000 --> 01:19:48.000
motorcade ceremony.
01:19:48.000 --> 01:19:50.000
Nak-combine na lang kita sa city kay
01:19:50.000 --> 01:19:52.000
mong magkakon we are in the same area
01:19:52.000 --> 01:19:54.000
and also additional
01:19:54.000 --> 01:19:56.000
information that by
01:19:56.000 --> 01:19:58.000
July we will be having
01:19:58.000 --> 01:20:00.000
a big event. This is
01:20:00.000 --> 01:20:02.000
a called summit
01:20:02.000 --> 01:20:04.000
disaster summit
01:20:04.000 --> 01:20:06.000
or the rescue
01:20:06.000 --> 01:20:08.000
group exercise. This will be
01:20:08.000 --> 01:20:10.000
participated by all LGUs
01:20:10.000 --> 01:20:12.000
all DRR practitioners
01:20:12.000 --> 01:20:14.000
of Suriname. Ang
01:20:14.000 --> 01:20:16.000
venue na niligili sa oval.
01:20:16.000 --> 01:20:18.000
So this is a big event.
01:20:18.000 --> 01:20:20.000
Kay ang purpose
01:20:20.000 --> 01:20:22.000
na niligili is about interoperability
01:20:22.000 --> 01:20:24.000
ng kananamang LGUs.
01:20:24.000 --> 01:20:26.000
Example, kung ang San Miguel

01:20:26.000 --> 01:20:28.000
at Tigtado sila mo tabak sa San Miguel
01:20:28.000 --> 01:20:30.000
simply ang mga adjoining mga municipalities
01:20:30.000 --> 01:20:32.000
that is why we will
01:20:32.000 --> 01:20:34.000
be doing this annual practice
01:20:34.000 --> 01:20:36.000
inisya when July
01:20:36.000 --> 01:20:38.000
comes mga Drupal Ruclade.
01:20:38.000 --> 01:20:40.000
Ngawin niya siya ang pakapraktis na mo sa resilience
01:20:40.000 --> 01:20:42.000
month celebration para maintain
01:20:42.000 --> 01:20:44.000
ang interoperability level status
01:20:44.000 --> 01:20:46.000
updating and upgrading sa
01:20:46.000 --> 01:20:48.000
mga skills of rescue operations.
01:20:48.000 --> 01:20:50.000
So this will
01:20:50.000 --> 01:20:52.000
I suppose will take place on
01:20:52.000 --> 01:20:54.000
July 25
01:20:54.000 --> 01:20:56.000
to 28
01:20:56.000 --> 01:20:58.000
Mr. Chair. Thank you.
01:20:58.000 --> 01:21:00.000
Thank you, Lix.
01:21:00.000 --> 01:21:02.000
For disclosure,
01:21:02.000 --> 01:21:04.000
the provincial planning
01:21:04.000 --> 01:21:06.000
and business coordinator is the sister
01:21:06.000 --> 01:21:08.000
of Mr. Ali
01:21:08.000 --> 01:21:10.000
Rogilio.

01:21:10.000 --> 01:21:12.000
We have our
01:21:12.000 --> 01:21:14.000
personal biases
01:21:14.000 --> 01:21:16.000
but anyway
01:21:16.000 --> 01:21:18.000
the issue is already
01:21:18.000 --> 01:21:20.000
settled.
01:21:20.000 --> 01:21:22.000
So na nila ang paghihimulan niya
01:21:22.000 --> 01:21:24.000
o tapos na natin as a piece.
01:21:28.000 --> 01:21:30.000
Sige, sir.
01:21:30.000 --> 01:21:32.000
Yes, ma'am.
01:21:32.000 --> 01:21:34.000
Thank you, Mr. Chair.
01:21:44.000 --> 01:21:46.000
Thank you, Mr. Chair.
01:21:46.000 --> 01:21:48.000
Just an announcement also
01:21:48.000 --> 01:21:50.000
aside from
01:21:50.000 --> 01:21:52.000
the disaster resilience month
01:21:52.000 --> 01:21:54.000
for July, July is also
01:21:54.000 --> 01:21:56.000
our nutrition month.
01:21:56.000 --> 01:21:58.000
So the theme for July
01:21:58.000 --> 01:22:00.000
for this year is
01:22:00.000 --> 01:22:02.000
healthy diet, going
01:22:02.000 --> 01:22:04.000
affordable for all.
01:22:04.000 --> 01:22:06.000
So this is still in line with
01:22:06.000 --> 01:22:08.000
our president's direction

01:22:08.000 --> 01:22:10.000
for
01:22:10.000 --> 01:22:12.000
food security
01:22:12.000 --> 01:22:14.000
aside from giving a nutritious
01:22:14.000 --> 01:22:16.000
and healthy diet
01:22:16.000 --> 01:22:18.000
for everyone.
01:22:18.000 --> 01:22:20.000
So we will be also starting
01:22:20.000 --> 01:22:22.000
it's a good thing for us
01:22:22.000 --> 01:22:24.000
nutrition for the office
01:22:24.000 --> 01:22:26.000
in EPGO.
01:22:26.000 --> 01:22:28.000
We will be sponsoring or we'll be the
01:22:28.000 --> 01:22:30.000
host for the Monday morning program.
01:22:30.000 --> 01:22:32.000
So morag mahulog na sa siya na
01:22:32.000 --> 01:22:34.000
mo ay kickoff
01:22:34.000 --> 01:22:36.000
for the launch of the
01:22:36.000 --> 01:22:38.000
nutrition month for the province.
01:22:38.000 --> 01:22:40.000
And then there will be a series also
01:22:40.000 --> 01:22:42.000
of activities. One would be
01:22:42.000 --> 01:22:44.000
the handout for every Wednesday
01:22:44.000 --> 01:22:46.000
sa legislative building.
01:22:46.000 --> 01:22:48.000
So aside from that
01:22:48.000 --> 01:22:50.000
there will be other
01:22:50.000 --> 01:22:52.000
activities

01:22:52.000 --> 01:22:54.000
and we will be presenting
01:22:54.000 --> 01:22:56.000
it on Monday. Thank you very
01:22:56.000 --> 01:22:58.000
much.
01:23:14.000 --> 01:23:16.000
We will be having
01:23:16.000 --> 01:23:18.000
the first ever
01:23:18.000 --> 01:23:20.000
multi-sectoral
01:23:20.000 --> 01:23:22.000
environmental summit
01:23:22.000 --> 01:23:24.000
together with the Diocesan
01:23:24.000 --> 01:23:26.000
of Tantan. This was
01:23:26.000 --> 01:23:28.000
the initiative of Bishop
01:23:28.000 --> 01:23:30.000
Nail.
01:23:30.000 --> 01:23:32.000
This will be held on July 12
01:23:32.000 --> 01:23:34.000
at Dimsojim
01:23:34.000 --> 01:23:36.000
Nation. The topics
01:23:36.000 --> 01:23:38.000
discussed will range from
01:23:38.000 --> 01:23:40.000
illegal logging up to
01:23:40.000 --> 01:23:42.000
mining.
01:23:42.000 --> 01:23:44.000
Dato'y ini siya na
01:23:44.000 --> 01:23:46.000
event
01:23:46.000 --> 01:23:48.000
para mo surface at
01:23:48.000 --> 01:23:50.000
mga issues about
01:23:50.000 --> 01:23:52.000
these two industries

01:23:52.000 --> 01:23:54.000
na yaon sa
01:23:54.000 --> 01:23:56.000
to province mo.
01:23:56.000 --> 01:23:58.000
The good governor
01:23:58.000 --> 01:24:00.000
is the main
01:24:00.000 --> 01:24:02.000
lead actor in the
01:24:02.000 --> 01:24:04.000
anti-illegal campaign
01:24:04.000 --> 01:24:06.000
in the province of
01:24:06.000 --> 01:24:08.000
Cirigal Nostro. In fact,
01:24:08.000 --> 01:24:10.000
kung makita niyo, there are a number
01:24:10.000 --> 01:24:12.000
of
01:24:12.000 --> 01:24:14.000
number of
01:24:14.000 --> 01:24:16.000
bridges
01:24:16.000 --> 01:24:18.000
ng magkulong
01:24:18.000 --> 01:24:20.000
house in
01:24:20.000 --> 01:24:22.000
dilip na mga
01:24:22.000 --> 01:24:24.000
sigot nagtusa
01:24:24.000 --> 01:24:26.000
din ang mga toan
01:24:26.000 --> 01:24:28.000
tanganan soya o naganit sa
01:24:28.000 --> 01:24:30.000
obal tungod sa padamok
01:24:30.000 --> 01:24:32.000
ng mga toan.
01:24:32.000 --> 01:24:34.000
Cirigal Nostro is also one of the hot spots
01:24:34.000 --> 01:24:36.000
in the whole of the country

01:24:36.000 --> 01:24:38.000
as far as
01:24:38.000 --> 01:24:40.000
logging is concerned.
01:24:40.000 --> 01:24:42.000
Cirigal Nostro ay natural growth sa
01:24:42.000 --> 01:24:44.000
NCO.
01:24:44.000 --> 01:24:46.000
That's why there was one
01:24:46.000 --> 01:24:48.000
occasion where
01:24:48.000 --> 01:24:50.000
Sen Ruyanga
01:24:50.000 --> 01:24:52.000
abakan
01:24:52.000 --> 01:24:54.000
ikuha sila, itong ilang
01:24:54.000 --> 01:24:56.000
trick point
01:24:56.000 --> 01:24:58.000
o relapot ng Sen Ruyanga.
01:24:58.000 --> 01:25:00.000
Output ng taga manila,
01:25:00.000 --> 01:25:02.000
taga region, o taga other
01:25:02.000 --> 01:25:04.000
Sen Ruyanga man, because
01:25:04.000 --> 01:25:06.000
there was an impression that
01:25:06.000 --> 01:25:08.000
number of actors
01:25:08.000 --> 01:25:10.000
including
01:25:10.000 --> 01:25:12.000
are involved in
01:25:12.000 --> 01:25:14.000
the illegal
01:25:14.000 --> 01:25:16.000
magkulong, particularly
01:25:16.000 --> 01:25:18.000
magkulong.
01:25:18.000 --> 01:25:20.000
So may awal ng problema nato.

01:25:20.000 --> 01:25:22.000
For the information of the body,
01:25:22.000 --> 01:25:24.000
the magkulong furniture is displayed
01:25:24.000 --> 01:25:26.000
in
01:25:26.000 --> 01:25:28.000
gata,
01:25:28.000 --> 01:25:30.000
barang gata.
01:25:30.000 --> 01:25:32.000
So ayaw nito
01:25:32.000 --> 01:25:34.000
kapalit if you are planning
01:25:34.000 --> 01:25:36.000
to transport, especially
01:25:36.000 --> 01:25:38.000
kung tatas na kamunan
01:25:38.000 --> 01:25:40.000
in Danau Island, because
01:25:40.000 --> 01:25:42.000
this unfinished product siya
01:25:42.000 --> 01:25:44.000
dakpong gadyaw, sayang na lamang
01:25:44.000 --> 01:25:46.000
ang diwata.
01:25:46.000 --> 01:25:48.000
Sayang na lamang.
01:25:48.000 --> 01:25:50.000
Gerit na bitayaw ng manihay
01:25:50.000 --> 01:25:52.000
kesa.
01:25:52.000 --> 01:25:54.000
Including atong
01:25:54.000 --> 01:25:56.000
rain sa space bar
01:25:56.000 --> 01:25:58.000
that was because of magkulong.
01:25:58.000 --> 01:26:00.000
Sa space bar when
01:26:00.000 --> 01:26:02.000
the rain took place,
01:26:02.000 --> 01:26:04.000
the laundry

01:26:04.000 --> 01:26:06.000
including
01:26:06.000 --> 01:26:08.000
the furniture
01:26:08.000 --> 01:26:10.000
was sold out.
01:26:10.000 --> 01:26:12.000
So beware
01:26:12.000 --> 01:26:14.000
when you buy magkulong
01:26:14.000 --> 01:26:16.000
products.
01:26:16.000 --> 01:26:18.000
Yes.
01:26:18.000 --> 01:26:20.000
But
01:26:20.000 --> 01:26:22.000
if you only have small
01:26:22.000 --> 01:26:24.000
items
01:26:24.000 --> 01:26:26.000
and you have a private car,
01:26:26.000 --> 01:26:28.000
you can also use it.
01:26:28.000 --> 01:26:30.000
But if you have a boat,
01:26:30.000 --> 01:26:32.000
you can also use it.
01:26:32.000 --> 01:26:34.000
Yes.
01:26:34.000 --> 01:26:36.000
If you are crossing
01:26:36.000 --> 01:26:38.000
other islands,
01:26:38.000 --> 01:26:40.000
ayaw nito.
01:26:40.000 --> 01:26:42.000
If you are giving it to your
01:26:42.000 --> 01:26:44.000
original director or
01:26:44.000 --> 01:26:46.000
head office,
01:26:46.000 --> 01:26:48.000
you can also use it.

01:26:48.000 --> 01:26:50.000
If you are giving it legally,
01:26:50.000 --> 01:26:52.000
ayaw nito.
01:26:52.000 --> 01:26:54.000
Okay. Any more?
01:26:56.000 --> 01:26:58.000
Because I will
01:26:58.000 --> 01:27:00.000
also be leaving by
01:27:00.000 --> 01:27:02.000
10.30.
01:27:02.000 --> 01:27:04.000
When I have to catch a flight,
01:27:04.000 --> 01:27:06.000
not because I am writing,
01:27:06.000 --> 01:27:08.000
but because I have to
01:27:08.000 --> 01:27:10.000
sugat somebody.
01:27:10.000 --> 01:27:12.000
Sige.
01:27:12.000 --> 01:27:14.000
Okay.
01:27:14.000 --> 01:27:16.000
On behalf of Governor
01:27:16.000 --> 01:27:18.000
Demeter, thank you all for coming
01:27:18.000 --> 01:27:20.000
and devoting your time in this
01:27:20.000 --> 01:27:22.000
meeting.
01:27:22.000 --> 01:27:24.000
This meeting is now adjourned.
